INT. J. GEOGRAPHICAL INFORMATION SCIENCE, 2002, VOL. 16, NO. 8, 847–849

Index of Authors (with titles of papers)

ADAMS, T. M., *see* Koncz, N. A.
AERTS, J. C. J. H. and HEUVELINK, G. B. M.: Using simulated annealing for resource allocation, 571
AGOURIS, P., *see* Stefanidis, A.
AGUMYA, A. and HUNTER, G. J.: Responding to the consequences of uncertainty in geographical data, 405
ALLGÖWER, B., *see* Bachmann, A.
ARKOUMANIS, D., *see* Papadias, D.

BACHMANN, A. and ALLGÖWER, B.: Uncertainty propagation in wildland fire behaviour modelling, 115
BAKER, W. L., *see* Lindemann, J.
BARROS, F., *see* de Vasconcelos, M. J. P.
BARRY, M. and FOURIE, C.: Analysing cadastral systems in uncertain situations: a conceptual framework based on soft systems theory, 23
BERTOLOTTO, M., *see* Stefanidis, A.
BLEWITT, G. and TAYLOR, G.: Mapping Dilution of Precision (MDOP) and map-matched GPS, 55
BUI, E. N., *see* Moran, C. J.
BURROUGH, P. A., *see* Heuvelink, G. B. M.

CANTERS, F., DE GENST, W. and DUFOURMONT, H.: Assessing effects of input uncertainty in structural landscape classification, 129
CARSWELL, J. D., *see* Stefanidis, A.
CATRY, F. X., *see* de Vasconcelos, M. J. P.
COVA, T. J. and GOODCHILD, M. F.: Extending geographical representation to include fields of spatial objects, 509

DAS, A., LELE, S. R., GLASS, G. E., SHIELDS, T. and PATZ, J.: Modelling a discrete spatial response using generalized linear mixed models: application to Lyme disease vectors, 151
DE GENST, W., *see* Canters, F.
DE VASCONCELOS, M. J. P., GONÇALVES, A., CATRY, F. X., PAÚL, J. U. and BARROS, F.: A working prototype of a dynamic geographical information system, 69
DREW, C., *see* Nyerges, T.
DUFOURMONT, H., *see* Canters, F.

EHLSCHLAEGER, C. R.: Representing multiple spatial statistics in generalized elevation uncertainty models: moving beyond the variogram, 259

FLORINSKY, I. V.: Errors of signal processing in digital terrain modelling, 475
FOURIE, C., *see* Barry, M.

GAR-ON YEH, A., *see* Li, X.
GEORGIADIS, C., *see* Stefanidis, A.
GLASS, G. E., *see* Das, A.
GONÇALVES, A., *see* de Vasconcelos, M. J. P.
GOODCHILD, M. F., *see* Cova, T. J.
GOODCHILD, M. F., *see* Shortridge, A. M.
GOODCHILD, M. F., *see* Ungerer, M. J.
GOOVAERTS, P.: Geostatistical modelling of spatial uncertainty using *p*-field simulation with conditional probability fields, 167
GOVERS, G., *see* van Rompaey, A. J. J.

HARRIS, R. S., *see* Robinson, T. P.
HAUSKA, H., *see* Ottoson, P.
HE, H. S., VENTURA, S. J. and MLADENOFF, D. J.: Effects of spatial aggregation approaches on classified satellite imagery, 93

Contents of Volume 16

Number 1

Research Articles

Data-gathering strategies for social-behavioural research about participatory geographical information system use
T. Nyerges, P. Jankowski and C. Drew 1

Analysing cadastral systems in uncertain situations: a conceptual framework based on soft systems theory
M. Barry and C. Fourie 23

Integrating spatial data analysis and GIS: a new implementation using the Component Object Model (COM)
M. J. Ungerer and M. F. Goodchild 41

Mapping Dilution of Precision (MDOP) and map-matched GPS
G. Blewitt and G. Taylor 55

A working prototype of a dynamic geographical information system
M. J. P. de Vasconcelos, A. Gonçalves, F. X. Catry, J. U. Paúl and F. Barros 69

Effects of spatial aggregation approaches on classified satellite imagery
H. S. He, S. J. Ventura and D. J. Mladenoff 93

Number 2

Themed Issue
Developments in Statistical Approaches to Spatial Uncertainty and its Propagation
Edited by Gerard B. M. Heuvelink and Peter A. Burrough

Guest Editorial: Developments in statistical approaches to spatial uncertainty and its propagation
G. B. M. Heuvelink and P. A. Burrough 111

Themed Articles

Uncertainty propagation in wildland fire behaviour modelling
A. Bachmann and B. Allgöwer 115

Assessing effects of input uncertainty in structural landscape classification
F. Canters, W. De Genst and H. Dufourmont 129

Modelling a discrete spatial response using generalized linear mixed models: application to Lyme disease vectors
A. Das, S. R. Lele, G. E. Glass, T. Shields and J. Patz 151

Geostatistical modelling of spatial uncertainty using *p*-field simulation with conditional probability fields
P. Goovaerts 167

Research Article

Efficient computation of spatial joins with intersection predicates
N. Koudas 179

Book reviews 203

Reviewer acknowledgements 209

Number 3

Research Articles

Ellipsoidal quadtrees for indexing of global geographical data
P. Ottoson and H. Hauska 213

Geometric probability and GIS: some applications for the statistics of intersections
A. M. Shortridge and M. F. Goodchild 227

Using process models to improve spatial analysis
S. W. Laffan 245

Representing multiple spatial statistics in generalized elevation uncertainty models: moving beyond the variogram
C. R. Ehlschlaeger 259

Accuracy of discontinuous binary surfaces: a case study using boreal forest fires
T. K. Remmel and A. H. Perera 287

Book reviews 299

Number 4

Research Articles

Developing a common spatial data infrastructure between State and Local Government—an Australian case study
S. Jacoby, J. Smith, L. Ting and I. Williamson 305

Neural-network-based cellular automata for simulating multiple land use changes using GIS
X. Li and A. Gar-On Yeh 323

An example of decision support for trypanosomiasis control using a geographical information system in eastern Zambia
T. P. Robinson, R. S. Harris, J. S. Hopkins and B. G. Williams 345

An experiment on the elevation accuracy improvement of photogrammetrically derived DEM
C. López 361

Using GIS to analyse a severe forest blowdown in the Southern Rocky Mountains
J. D. Lindemann and W. L. Baker 377

Book reviews 401

Number 5

Research Articles

Responding to the consequences of uncertainty in geographical data
A. Agumya and G. J. Hunter 405

Fractal dimension and fractal growth of urbanized areas
G. Shen 419

A method for the formalization and integration of geographical categorizations
M. Kavouras and M. Kokla 439

Experimental evaluation of positional accuracy estimates from a linear network using point- and line-based testing methods
T. G. Van Niel and T. R. McVicar 455

Errors of signal processing in digital terrain modelling
I. V. Florinsky 475

Book reviews 503

Number 6

Research Articles

Extending geographical representation to include fields of spatial objects
T. J. Cova and M. F. Goodchild 509

Spatial data mining for enhanced soil map modelling
C. J. Moran and E. N. Bui 533

A data model for multi-dimensional transportation applications
N. A. Koncz and T. M. Adams 551

Using simulated annealing for resource allocation
J. C. J. H. Aerts and G. B. M. Heuvelink 571

Review Article

Watermarking of digital geospatial datasets: a review of technical, legal and copyright issues
C. López 589

Book reviews 609

Number 7

Research Articles

Search algorithms for multiway spatial joins
D. Papadias and D. Arkoumanis 613

Towards an evaluation of quality for names placement methods
S. van Dijk, M. van Kreveld, T. Strijk and A. Wolff 641

Data quality and model complexity for regional scale soil erosion prediction
A. J. J. van Rompaey and G. Govers 663

Using GIS in passive microwave soil moisture mapping and geostatistical analysis
A. Oldak, T. J. Jackson and Y. Pachepsky 681

Quantitative measures for spatial information of maps
Z. Li and P. Huang 699

Book reviews 711

Number 8

Research Articles

Generic query tool for spatio-temporal data
P. van Oosterom, B. Maessen and W. Quak 713

Scale- and orientation-invariant scene similarity metrics for image queries
A. Stefanidis, P. Agouris, C. Georgiadis, M. Bertolotto and J. D. Carswell 749

Characterisation and generalisation of cartographic lines using Delaunay triangulation
P. M. van der Poorten and C. B. Jones 773

Calibration of stochastic cellular automata: the application to rural-urban land conversions
F. Wu 795

Error assessment of grid-based flow routing algorithms used in hydrological models
Q. Zhou and X. Liu 819

Book reviews 843
